

# FORRESTVILLE VALLEY SCHOOL DISTRICT #221

SUPERINTENDENT  
Mrs. Sheri Smith

March 1, 2017

Dear Parents or Guardians;

The Illinois School Code requires students to meet various requirements at certain grade levels. Please use this letter as a guide to the requirements your child needs to fulfill for school enrollment in the fall.

**Preschool:** Completed Illinois Physical Exam form (when first entering preschool), including physician verification of having received all required immunizations including: varicella and pneumococcal vaccines.

**Kindergarten:** Completed Illinois Physical Exam form including physician verification of having received all required immunizations including two doses of varicella vaccine. A completed professional eye examination and completed dental form.

**2<sup>nd</sup> grade:** Completed dental form.

**6<sup>th</sup> grade:** Completed Illinois Physical Exam form including physician verification of having received all required immunizations including: a Td booster, Meningitis vaccine, and 2 doses of varicella vaccinations. A completed dental form.

**9<sup>th</sup> grade:** Completed Illinois Physical Exam form including physician verification of having received all required immunizations including: a Td booster (if not received in 6<sup>th</sup> grade) and two doses of Meningitis vaccine (unless 1<sup>st</sup> dose was administered after 16yrs of age then only 1 is required).

Students first entering a school in Illinois from out of state are required to complete: a physical exam, professional eye examination and dental exam, all documented on Illinois forms.

Completed Dental forms are to be on file by May 15<sup>th</sup>. Students must have been seen by a dentist in the previous 18 months of the deadline to complete the requirement.

If you object to this process for health reasons, a physician's statement is needed stating the required immunizations are detrimental to the health of the child. Objections to vaccinations due to religious beliefs must be submitted in writing stating supporting biblical scripture with references and parent signatures. Also, an Illinois Certificate of Religious Exemption must be completed and signed by parents and a MD, DO, APN or PA. The district is required to comply with state requirements when enrolling students into school. If the requirements stated above are incomplete as of October 15<sup>th</sup>, students will be dismissed from school until they can be completed.

If you have any questions, please leave me a message with a building secretary and I will return your call.

Sincerely,

*Jennifer Nelson RN*

Jennifer Nelson RN

# State of Illinois Eye Examination Report

Illinois law requires that proof of an eye examination by an optometrist or physician (such as an ophthalmologist) who provides eye examinations be submitted to the school no later than October 15 of the year the child is first enrolled or as required by the school for other children. The examination must be completed within one year prior to the first day of the school year the child enters the Illinois school system for the first time. The parent of any child who is unable to obtain an examination must submit a waiver form to the school.

# REQUEST FOR ADMINISTRATION OF MEDICINE

We recognize that there are children who are able to attend school because of the effective use of medication in the treatment of disabilities or illnesses. We firmly believe that medication should be administered at home and strongly discourage medications at school. Please check with your physician to see if there is any way to avoid your child taking medication at school. If there are no alternatives and it is absolutely necessary, a pupil who is required to take medication during the regular school day must comply with the school regulations. If you have any questions about these regulations, please contact our school nurse. These regulations include the following:

- 1) Notify the school nurse through the school secretary or teacher that your child must take medication while at school.
- 2) Written orders from the physician detailing the name of the drug, dosage, and directions for administering the medication must be on file at the school prior to administration of the medication.
- 3) Written permission is required from the parent or guardian of the pupil requesting that the school comply with the physician's order.
- 4) Medication must be brought to school in the pharmacy prescription bottle labeled with the child's name, name of medication, directions for taking, and the doctor's name who ordered it. It must be left at school and not transported back and forth between home and school. An extra labeled-bottle may be obtained from the pharmacy at a very small cost. Over-the-counter medication must be brought to school in the original container.
- 5) Any medication taken three times per day will be given at home unless specifically ordered at noon by the physician.
- 6) Medication is to be kept in the school office. Your child should be instructed by you to report to the office at the time he/she is to take the medication.

## TO BE COMPLETED BY THE PHYSICIAN
